

This is just a quick note showing my support for HB5146. As a resident of Milford I donate food through the Purple Pantry Box program, filling it once per month. This shows me the need for such programs in my hometown. HB5146 would go such a long way to filling that need. I confess I consume expired goods from my own kitchen cabinets often. The printed expiration dates on products are simply guidelines from which one needs to use common sense.

Please support HB5146 so we can reduce food waste, and help those in need.

Respectfully,

Alyson Rodgerson
